Economic Inequality

Economic inequality refers to the uneven distribution of income and wealth among individuals or groups within a society. Political Inequality

Political inequality manifests when certain groups have more influence over policy-making and resource allocation than others, often due to unequal access to civic participation, voting rights, or lobbying power.

The Root Causes of Inequality

Addressing inequality requires understanding its underlying causes, which include:

- Structural economic shifts: Automation, globalization, and technological change have disproportionately benefited capital owners and skilled workers, marginalizing low-skilled labor.

- Social discrimination: Racism, sexism, and other forms of bias hinder equal opportunities.
