The test typically includes around 180 questions, with a time limit of approximately four hours, requiring both depth and efficiency in answering.

Core Domains Covered by the Test Questions

Certified facility manager test questions are categorized into several key domains that collectively represent the full scope of facility management responsibilities:

Operations and Maintenance: Questions assess knowledge of maintenance

1. strategies, operational procedures, and sustainability practices.

Project Management: Test items focus on the planning, execution, and closing of

2.

facility-related projects, including budgeting and scheduling.

Finance and Business: This domain covers financial management, cost control,

3.

and resource allocation relevant to facilities.

Leadership and Strategy: Questions here evaluate leadership competencies,

4.

strategic planning, and organizational alignment.
