If you're embarking on your friendship bracelets journey, it's helpful to know the basics before diving into complex designs. Here's a quick rundown of what you need and how to get started:

Materials You'll Need

Embroidery floss or colorful threads (these are soft, durable, and come in many shades)

Scissors

Tape or clipboard to hold your bracelet steady while knotting

Optional: beads or charms for added flair

Basic Knotting Techniques

Friendship bracelets are mostly made using two fundamental knots: the forward knot and the backward knot. Mastering these will open the door to countless patterns.

Forward Knot: This knot is made by wrapping the left thread over the right thread

1.

twice and pulling tight. It creates a knot that leans forward.

Backward Knot: The opposite of the forward knot, this is made by wrapping the

2.

right thread over the left thread twice, resulting in a knot that leans backward.

By alternating these knots, you can craft diagonal stripes, chevrons, and more intricate patterns. Practice patience ? knotting is a relaxing art that improves with every bracelet you make.

Step-by-Step Guide to a Simple Friendship Bracelet

Here?s a straightforward pattern to get you started:

Cut 4 strands of embroidery ?oss, each about 60-70 inches long.

1.

Tie the strands together at one end, leaving a small tail for tying later.

2.

Secure the knotted end to a table with tape or clip it to a clipboard.

3.

Arrange the strands in the order of colors you prefer.

4.

Using the forward knot, tie the leftmost strand over the next strand to the right.

5.

Repeat tying forward knots across the row until you reach the end.

6.

Start the next row with the new leftmost strand, repeating the process to create

7.

diagonal stripes.

Continue until the bracelet reaches desired length.

8.

Tie off the end and trim any excess thread.

9.

Wear your bracelet proudly or gift it to a friend as a symbol of your unbreakable bond.
