## **Routine Maintenance Tips from the Lesco Mower Owners Manual**

Regular maintenance is key to keeping your Lesco mower in top condition. The manual provides a maintenance schedule, but here are some important tips to keep in mind:

### **Checking and Changing Oil**

Engine oil lubricates the mower's internal components, preventing wear and overheating. The manual recommends checking oil levels before each use and changing oil after the first 5 hours of operation, then every 50 hours or seasonally. Using the correct oil type listed in the manual is critical.

### **Air Filter Care**

### **Uneven Cutting or Scalping**

This can be caused by dull blades, incorrect cutting height, or uneven terrain. The manual advises adjusting deck height and inspecting blades for damage.

### **Mower Vibrates Excessively**

Imbalanced blades or loose components often cause vibrations. The manual recommends blade balancing procedures and tightening bolts as necessary.

### **Battery or Electric Start Issues**
