Understanding PM Benchmark Assessment in Ontario

The PM Benchmark Assessment is a formative reading evaluation system that provides

detailed insight into a child's reading level, strengths, and areas for growth. Developed

with a foundation in literacy research, the tool is used across many Canadian provinces,

including Ontario, to support differentiated instruction and improve reading outcomes for students from kindergarten through grade 8.

Ontario educators appreciate the PM Benchmark Assessment because it offers a clear picture of a student's reading behaviors, including decoding skills, comprehension, fluency, and vocabulary. This understanding empowers teachers to tailor their teaching strategies effectively.

What Makes PM Benchmark Assessment Unique?

Unlike standardized tests that focus on summative results, the PM Benchmark Assessment is designed as an ongoing tool that allows educators to monitor progress over time. It includes leveled books, running records, and comprehension questions, enabling teachers to observe how students interact with texts and identify specific literacy needs.

In Ontario, where curriculum expectations emphasize literacy development across all grades, the PM Benchmark Assessment aligns well with provincial standards and supports the Ontario Language curriculum by providing actionable data.

Implementing PM Benchmark Assessment in Ontario Classrooms

Introducing the PM Benchmark Assessment into classrooms involves a strategic approach to ensure the tool's maximum benefit for students. Ontario schools often integrate this assessment as part of their balanced literacy programs.

Step-by-Step Process for Teachers

****Initial Screening**:** Early in the school year, teachers conduct one-on-one

1.

assessments using PM Benchmark books matched to a student's grade level or reading ability.

****Running Records**:** While the student reads aloud, teachers take running records

2.

to note errors, self-corrections, and reading fluency.

****Comprehension Checks**:** After reading, educators ask targeted questions to

3.

evaluate understanding and inferential skills.

****Data Analysis**:** Teachers analyze the results to determine reading levels,

4.

pinpoint challenges, and plan targeted interventions.

****Progress Monitoring**:** Throughout the year, repeated assessments track growth

5.

and guide adjustments in instruction.

This cyclical process reinforces differentiated instruction, a key focus in Ontario's

education system, by addressing individual learning needs rather than adopting a one-size-fits-all approach.
