The Scope of Homelessness:

- Globally, estimates suggest over 150 million people experience homelessness at some point annually.
- In the United States, the 2022 Annual Homeless Assessment Report (AHAR) identified approximately 582,000 people experiencing homelessness on any given night.
- Urban areas tend to have higher prevalence rates due to housing costs, economic disparities, and social factors.

The "Hidden Homeless": An Underestimated Population

Beyond visible homelessness, there exists a significant "hidden" population, including:

- People couch surfing or staying temporarily with friends or family.
