1. Executive Summary

This section gives readers a snapshot of your entire plan. It should succinctly describe your business, the product or service you're offering, your target market, and key financial highlights. Although it appears first, many find it easier to write the executive summary last, once all other sections are complete.

2. Company Description

Here, you dive into the details of what your business does and what makes it unique. Explain your mission, vision, and legal structure. Highlight your business's history if applicable, and outline the problems your product or service solves.

8. Financial Projections

This section often intimidates new entrepreneurs but is essential. Provide forecasted income statements, cash flow statements, and balance sheets for at least three to five years. Use realistic assumptions and back your numbers with data.
